OPPORTUNITY BY [THE NEW ART FEST - WHERE ART MEETS TECHNOLOGY](#)

MONDAY 6 JULY 2020 AT 00:00H
Praça Luís de Camões, 22, 4º Dt Lisbon 1249-190 Lisboa

MAKER ART, as part of The New Art Fest 2020, is an exhibition, where 'new media art' projects are presented as if in a beta stage, probably in search of a business angel to make them true. Maker Art 2020 will be 100% online, addressing Pandemia as an inspirational leitmotiv.

The new coronavirus has brought us to a sudden and extreme dependence on virtual worlds. Social distance induced by our growing reliance on the technosphere is not entirely new, but the new half-living creature (2019-nCoV) housed us in a kind of a planetary concentration camp. Will this global event induce metamorphosis of the human space. If so, what about future art?

MAKER ART is not only an exhibition of freshly squeezed new-media artworks, but also the right spot for cross-fertilization processes.

From all the accepted applications a limited number of artists will be selected for the exhibition. Artworks in exhibition will automatically apply to the Black Raven Award.

MAKER ART online exhibition goes from July 29 thru September 16, 2020.
